SUMMARY

Software Engineer passionate about building scalable applications and delivering seamless user experiences across web and mobile. I enjoy working with startups and product teams to turn ideas into real, impactful products.

EXPERIENCE

*Conclase, **Frontend Developer***

Jul 2025 - Present

- Develop and maintain multiple web products for the company using React.js and Next.js. • Built Stacstart: a full platform combining an LMS and AI-powered job matching, including an AI course video generation • Built and maintain the Conclase Academy LMS, supporting course delivery and student management for 3000+ learners. • Collaborate with designers and backend developers to ensure quality UI/UX and performance across all products.

*Tredi (Odj Tech), **Mobile Developer (React Native)***

Dec 2025 - Present

- Build a mobile invoice management system supporting invoice creation, expense tracking, and product management. • Implement full offline functionality, allowing users to work without internet and auto-sync data when back online. • Design intuitive UI flows to ensure a smooth experience for business owners managing finances on the go.

*Smartmart, **Mobile Developer (React Native)***

Mar 2025 - Nov 2025

- Developed and deployed a logistics mobile app to both Google Play Store and Apple App Store. • Contributed to weekly customer report meetings on app usage, feedback, and performance metrics. • Monitored and optimized weekly app performance, reducing crash rates and responsiveness across devices.

*Porchplus, **Mobile Developer (React Native)***

Feb 2024 - Jul 2025

- Built two React Native apps: a Tenant App and a Property Management App, for landlords and property managers. • Implemented in-app chatting features enabling direct communication between tenants and landlords. • Added push notifications and geolocation for enhanced user engagement and property discovery.

*Rubies Technology, **Frontend Developer***

Jan 2024 - Jan 2025

- Built and maintained company software using Next.js and Tailwind CSS, integrated with RESTful APIs. • Mentored junior staff and young learners in HTML, CSS, and JavaScript fundamentals.

*Shaperly Africa, **Mobile Developer (React Native)***

Jan 2023 - Jul 2023

- Collaborated on a logistics app covering both driver and customer apps, connected via REST APIs. • Implemented offline data synchronization to ensure the app functioned in low-connectivity environments.

*SQI College of ICT, **Software Developer Instructor***

Aug 2020 - May 2023

- Taught Next.js, Node.js, GraphQL, and Cloud Hosting to software engineering students. • Mentored students on real-world development practices, project management, and career growth.

EDUCATION

Ladoke Akintola University of Technology

*B.Tech. • **Pure and Applied Physics***

Second Class Upper — 4.08 / 5.00

SQI College of ICT

*Professional Certificate • **Software Engineering***

LICENSES & CERTIFICATIONS

JavaScript Programming Crash Course

Issued Jan 2024

Full Stack Engineer Certificate, SQL

SQL • Issued Jan 2022

React + Redux

Issued Jan 2020

CSS

SoloLearn • Issued Jan 2020

HTML

SoloLearn • Issued Jan 2020

SKILLS

JavaScript • TypeScript • Python • Dart • React.js • Next.js • Angular • Vue.js • Svelte • React Native
